

## MAJOR ACTIVITY HIGHLIGHTS

- **Soymeal Domestic Market Prices Remained Steady.**
- **NCDEX Soymeal March Contract Witnessed No Trading.**

## COMMENTARY DOMESTIC MARKET Soy meal

Domestic soymeal prices remained steady at most of the spot markets. The prices have been hovering around these levels since last few days. The current situation is slightly mixed, as soybean supply is decreasing in the domestic spot markets, whereas the global market is slowly and steadily coming in bearish mood as the harvest of South American crop is nearing which is expected to be a big one to flood the market with supplies. Also, the record levels of ending stock expected with U.S. is hitting the market sentiments. Further, the deadly disease bird flu is again coming into play as Hong Kong reported some infected birds and Iraq reported its second human death by bird flu. Recently, Indonesia reported fresh cases of bird flu. There was also very low level of activity seen at the ports as, influenced by bearish sentiments in the global markets buyers are asking soymeal for lower prices and sellers seems in no hurry to sell and are waiting for higher prices. Lower prices would put pressure on crush margins in the scenario of lower oil prices, which is being imported in a large quantity this year in comparison to last year. Some futures at NCDEX witnessed no trading in April contract, whereas March soymeal saw an unexpected jump in prices. CBOT soymeal futures slipped further on Tuesday as the large South American crop is ringing the bells for entry in the market.

The prices at Indore spot market were no different from the recent levels and traded in the range of Rs 8400-8700 per MT levels. April soymeal at NCDEX remained stationary at its previous levels of Rs 8750 in the absence of any trading. March soymeal surged to Rs 8799 from Rs 8450 per MT. Ports witnessed no trading as the buyers and sellers were standing apart to deny any transaction. The buyers were asking soymeal for Rs 9200 per MT whereas the sellers were standing tall at Rs 9300-350 per MT at Kandla port.

We are in the phase of the market where the demand is coming in trickles and buyers are at bargaining position; at the same time the sellers are also not looking on a hurry and looking for the right prices. Also, in times to come, we are going to see a flood of supplies from the South American crop harvest. We expect the prices to remain steady to range bound for the moment.

### Latest Soy Meal Vessel Report

Mumbai Port is loading 2,500 MT of SBM on the vessel 'Indruwa Valley'. Sai Freight agents is handling the vessel. Loading of 6,000 MT of SBM is expected at the port on the vessel 'Lover Star'. #### NCDEX Soy meal Futures Prices ( 9 Feb'06)

Contract	Prev Close	High	Low	Close	Change
March'06	8450.00	00.00	00.00	00.00	00.00
April'06	8750.00	00.00	00.00	00.00	00.00

#### Rape/ Mustard meal

Mustard seed arrivals (Fresh crop) at different mandis in Rajasthan is picking up slowly. At the moment fresh mustard seed is around 2500 bags in Rajasthan market. Hefty previous stock (mainly with NAFED) alongwith the forthcoming harvest season projects a bearish picture for mustard seed. Further, increased expected production this year i.e. 6.7 million tonnes as compared to the previous year's 6.25 million tonnes, supports the same thought. To some extent, Government buying (announced 20 lakh tonnes) of mustard seed at MSP Rs 1715 is likely to support the freefall of prices but looking at the crop size this effort of the government probably would not prove to be sufficient. So expect the mustard meal prices to stumble as the arrivals in mandis and crushing gets momentum during the coming time. Today there was no trading seen at Kandla port, as the buyers and sellers were standing apart. Today the Mustard oilcake was quoted in Morena Rs 4600 per MT.

#### Groundnut meal

There is nothing new input in the groundnut meal market as the arrivals, crushing and demand all seems to be steadied. The groundnut harvesting and arrivals in the southern market is at higher levels whereas the Gujarat markets are witnessing gradual fall in arrivals. As, at the moment oil prices are at lower levels due to good supply position of the oil due to higher crushing activity in soybeans. The arrivals of GN are diminishing in the major producing areas in Gujarat. The prices are almost steady. The prices will improve slightly if the prices of the seeds jump higher in lower supply scenario. GN meals (40%) were slightly improved at Rs 6300 on credit and Rs 6050 per MT on cash in Saurashtra.

#### INTERNATIONAL MARKET

##### CBOT Soymeal Futures Settle Higher

March Soybeans settled up 4 cents at \$5.78/bushel, 4.50 cents off the high and 7 cents up from the low. May Soybeans settled up 3.25 cents at \$5.9125/bushel which was 7.25 cents up from the low and 4.25 cents off the high. March Soymeal settled up \$3.5 at \$180.2/tonnes that was \$4.4 up from the low and \$0.3 off the high. March Soybean Oil finished down 0.13 cents at 22.15 cents/pound, 0.13

cents off the high and 0.08 cents up from the low. Early downfall pressurised the market initially but later half observed a solid gain for the reason of possibility of index fund buyers being active that time. Traders are waiting for supply/demand report with hope for a jump of 29 million bushels in ending stocks to 534 million bushels. Weekly export sales report released, showing soybean sales near 250,000-400,000 tonnes as compared with 446,600 tonnes last week. Soymeal sales are expected near 50,000-125,000 tonnes and oil sales near 0-10,000 tonnes. Speculation of lower production from Brazil and Argentina could also be the possible reason for gaining support. South Korea is planning to buy 165,000 tonnes of optional origin meal.

#### CBOT Soymeal futures as on February 8<sup>th</sup>, 2006 (Unit: \$/MT)

Contract	Prev Close	Open Price	High Price	Low Price	Close Price	Change (\$)
Mar '06	180.2	181	183.8	179.5	181.2	+1.0
May'06	179.5	182.6	184	185.7	182.8	+1.2

#### WEATHER WATCH: (09.02.06)

##### Chief Features

Mainly dry weather conditions continue to prevail over the country. This scenario is likely to continue for next 2-3 days except isolated light rain/snow over higher reaches of Jammu & Kashmir and Himachal Pradesh during next 24 hours. Isolated light rainfall is also likely over Sub-Himalayan West Bengal & Sikkim and Northeastern states on 10<sup>th</sup> and 11<sup>th</sup> February. Day temperatures continue to be above normal by 4-6 deg C over northwest India and 2-4 deg C over Gangetic plains, central and eastern parts of the country. Night temperatures are also above normal by 2-4 deg C over northwest India and Gangetic plains. These warm conditions over northwest and central India are likely to continue for next 2-3 days. However, a fall of 1-2 deg C in minimum temperature is likely during next 2-3 days.

##### Forecast valid 0830 hours IST of 11<sup>th</sup> FEBRUARY, 2006

**NORTH-WEST** (J & K, H. P., UTTARANCHAL, PUNJAB, HARYANA, DELHI, WEST UP)

Isolated rain/snow likely over higher reaches of Jammu & Kashmir and Himachal Pradesh. Weather will be mainly dry over the rest region.

**EAST** (EAST UP, BIHAR, JHARKHAND, WEST BENGAL & SIKKIM, ORISSA)

Weather will be mainly dry over the region.

**NORTHEAST** (Arunachal Pradesh, Assam, Meghalaya, NMM & T)

Isolated rain/thundershowers likely over Sub-Himalayan West Bengal & Sikkim and northeastern States on 10<sup>th</sup> & 11<sup>th</sup>. Weather will be mainly dry over the rest region.

**SOUTH** (TN, AP, KERALA, KARNATAKA, ANDAMAN & NICOBAR ISLANDS, LAKSHADWEEP)

Isolated rain/thundershowers likely over Nicobar Islands. Weather will be mainly dry over the rest region.

**WEST** (MAHARASHTRA OTHER THAN VIDARBHA, GOA, GUJARAT, RAJASTHAN)

Weather will be mainly dry over the region.

**CENTRAL** (MADHYA PRADESH, CHHATTISGARH, VIDARBHA)

Weather will be mainly dry over the region.

**Outlook for subsequent two days based on NCMRWF and other numerical weather products**

Temperatures over northwest & central India are likely to remain appreciably above normal.
