

MAJOR ACTIVITY HIGHLIGHTS

- **Soymeal Domestic Market Prices Remained Steady.**
- **NCDEX Soymeal April Contract Witnessed No Trading.**

COMMENTARY DOMESTIC MARKET Soy meal

Domestic soymeal prices remained steady at most of the spot market in the absence of any fresh inputs. The prices have been hovering around these levels since last few days. The current situation is slightly mixed, as soybean supply is decreasing in the domestic spot markets, whereas the global market is slowly and steadily coming in bearish mood as the harvest of South American crop is nearing. There is also very low level of activity seen at the ports as influenced by bearish sentiments in the global markets buyers are asking soymeal for lower prices and sellers seems in no hurry to sell and are waiting for higher prices. The soy futures at NCDEX witnessed no trading in April and March contracts today. CBOT soymeal futures slipped as the large South American crop is ringing the bells for entry in the market.

The prices at Indore spot market were no different from the recent levels and traded in the range of Rs 8500-8700 per MT levels. April soymeal at NCDEX remained stationary at its previous levels of Rs 8750 in the absence of any trading. Ports witnessed no trading as the buyers and sellers were standing apart to deny any transaction. The buyers were asking soymeal for Rs 9200 per MT whereas the sellers were standing tall at Rs 9300-350 per MT at Kandla port. much activity on the last trading day of the week. Also, the deadly disease bird flu is again coming into play as Hong Kong reported some infected birds and Iraq repoted its second human death by bird flu. Recently, Indonesia reported fresh cases of bird flu. We are in the phase of the market where the demand is coming in trickles and buyers are at bargaining position; at the same time the sellers are also not looking on a hurry and looking for the right prices. Also, in times to come, we are going to see a flood of supplies from the South American crop harvest. We expect the prices to remain steady to range bound for the moment.

Latest Soy Meal Vessel Report

Jamnagara Port is loading 11,000 MT of SBM to China on the vessel 'Iran Kolhadoo'. 'Iran Vahadat' is being loaded 15,300 MT of SBM from the port to China. March'06	8450.00	00.00	00.00	00.00	00.00
April'06	8750.00	00.00	00.00	00.00	00.00

Rape/ Mustard meal

Footsteps of fresh mustard seeds are being seen in the Rajasthan market. Hefty previous stock (mainly with NAFED) alongwith the forthcoming harvest season projects a bearish picture for mustard seed. Further, increased expected production this year i.e. 6.7 million tonnes as compared to the previous year's 6.25 million tonnes, supports the same thought. To some extent, Government buying (announced 20 lakh tonnes) of mustard seed at MSP Rs 1715 is likely to support the freefall of prices but looking at the crop size this effort of the government probably would not prove to be sufficient. So expect the mustard meal prices to stumble as the arrivals in mandis and crushing gets momentum during the coming time. Today there was no trading seen at Kandla port, as the buyers and sellers were standing apart. Today the Mustard oilcake was quoted in Morena Rs 4600 per MT.

Groundnut meal

There is nothing new input in the groundnut meal market as the arrivals, crushing and demand all seems to be steadied. The groundnut harvesting and arrivals in the southern market is at higher levels whereas the Gujarat markets are witnessing gradual fall in arrivals. As, at the moment oil prices are at lower levels due to good supply position of the oil due to higher crushing activity in soybeans. The arrivals of GN are diminishing in the major producing areas in Gujarat. The prices are almost steady. The prices will improve slightly if the prices of the seeds jump higher in lower supply scenario. GN meals (40%) were slightly improved at Rs 6300 on credit and Rs 6050 per MT on cash in Saurashtra.

INTERNATIONAL MARKET

CBOT Soymeal Futures Settle Lower

Soy future settled low at Chicago Boards of Trades on Monday. March Soybeans settled down 7.75 cents at \$5.87/bushel, 17.50 cents off the high and 4 cents up from the low. May Soybeans settled down 7 cents at \$6.0050/bushel that was 3.50 cents up from the low and 16 cents off the high. March Soymeal settled down \$3 at \$181.0/ton, which was \$0.8 up from the low and 3.3 off the high. March Soybean Oil settled down 0.09 cents at 22.57 cents/pound, 0.28 cents off the high and 0.32 cents up from the low. With the firm opening the market lost its strength due to lack of interest of fund buyers coupled with selling pressure of long position holders. At the same time, sellers were relaxed for the reason that fund buyers will not come forward due to lower movement of wheat and corn. Talk of improving South American weather situation and forecast of rain early this week and weakened in Argentina helped further to pull the market down. Cumulative shipments of US soybean for this year reached only at 50.1% as compared to the USDA forecast of 62.8%.

CBOT Soymeal futures as on February 6th, 2006

WEATHER WATCH: (07.02.06)

Chief Features

A western disturbance as an upper air system lies over north Pakistan and neighbourhood. It is likely to cause rain/snow at a few places over higher reaches of Jammu & Kashmir and at isolated places over rest Jammu & Kashmir and Himachal Pradesh during next 2 days. Mainly dry weather conditions are likely over remaining parts of the country with day temperatures during next 2-3 days remaining above normal by 4-6°C over northwest & adjoining central India and by 2-3°C over rest parts of the country. Under the influence of above western disturbance, the night temperatures over northwest India are likely to increase by 2-3°C during next 2 days and may fall by nearly the same magnitude in subsequent 2 days.

Forecast valid till 1430 hours IST of 9th FEBRUARY, 2006

NORTH-WEST INDIA (J & K, H. P., UTTARANCHAL, PUNJAB, HARYANA, DELHI, UP) WEST

Rain/snow likely at a few places over higher reaches of Jammu & Kashmir and isolated over rest Jammu & Kashmir, Himachal Pradesh and Uttaranchal. Weather will be mainly dry over the rest region.

EAST INDIA (EAST UP, BIHAR, JHARKHAND, WEST BENGAL, ORISSA)

Weather will be mainly dry over the region.

NORTHEAST INDIA (Arunachal Pradesh, Assam, Meghalaya, NMM & T)

Weather will be mainly dry over the region.

SOUTH INDIA (TN, AP, KERALA, KARNATAKA, ANDAMAN & NICOBAR ISLANDS, LAKSHADWEEP)

Isolated rain/thundershowers are likely over Nicobar Islands. Weather will be Mainly dry in the rest region.

WEST INDIA (MAHARASHTRA OTHER THAN VIDARBHA, GUJARAT, RAJASTHAN)

Weather will be mainly dry over the region.

CENTRAL INDIA (MADHYA PRADESH, CHHATTISGARH, VIDARBHA)

Weather will be mainly dry over the region.

Outlook for subsequent two days based on NCMRWF and other numerical weather products:

Isolated to scattered rainfall is likely over Northeastern states and Sub Himalayan West Bengal & Sikkim.
