### Groundnut meal

Groundnut in the increased slightly and waiting for the government's action to remove the VAT from groundnut. If the VAT is removed from the state the prices would decline about Rs. 100-200 in the physical. The prices are expected to remain on the higher levels due to reduced supply and unavailability of seeds in the market. VAT remains the chief concern in Gujarat as traders are eagerly awaits for lifting VAT from groundnut and its derivatives. Though, state government assured to remove the VAT but no action till now be taken to resolve the issue. This lead to slow crushing in the mills and low availability of meals in the open market. Some export demand also help to boost the prices up in the market. The price is expected to improve in coming days, as there are very low

stocks left and stocks in stronger hand. Exporters are not getting the enough meal to export. GN meals (40%) by cash were at Rs 6500 and (45%) at Rs 7050 per MT on cash in Saurashtra.
