- **Soymeal Remain Range Bound**
- **Soymeal Futures Witness Decline**

## DOMESTIC MARKET

### Soy meal

Stand still condition persists at most of the centers, as there was not much change observed in the prices at different centers. Soy meal remains stable at this juncture. Emerging demand from the Far Eastern countries and improved prices in the ports helped to boost its prices in the physical market. Soy meal prices still maintain the higher levels in different centers amid shortage of seeds for crushing. Reduced arrivals results into higher seed prices in the Mandi and plant rate were also quoted high, thereby causing the meal prices to go up. High prices quoted at the ports by the buyers also provided underlying support. Overall scenario remains in favour of bulls. Rising prices of soybean due to poor stocks with farmers would lead to drop in crushing next month, further reducing meal availability. Sentiments at the major centers observed range bound to slight improvement as the prices of the seeds are improving day by day with somewhat reduced arrivals. The stocks are in the higher hands as they are releasing it for fetching premiums. Plants are working for limited period of time and even working for limited hours. Unavailability of crushing seeds by the miller results into spurt in the prices in the physical market. High demand from the export end is also supporting the market up and providing underlying support.

The prices at almost all the centers remain steady except Dhulia where prices are rising constantly due to acute shortage of meal and very high seed rates. Indore spot market remains steady at Rs 8400-8500/ton as per quality. Where Nanded and Latur is traded in between Rs. 9000-9100. Dhulia/Jalna and Datia witnessed Rs. 8900-9000 and 8700 respectively. In Nagpur the meal witnessed Rs. 8700/8900. Futures market decline slightly on speculative selling. Less activities could be noticed in the ports as the prices remain very high and loosing its competitiveness in international arena. The prices are expected to improve in coming days as the stocks are getting short and short.

#### Groundnut meal

Groundnut meal in the physical market remains range bound on the higher levels. The prices are expected to remain on the higher levels due to reduced supply and unavailability of seeds in the market. VAT remains the chief concern in Gujarat as traders are eagerly awaits for lifting VAT from groundnut and its derivatives. Though, state government assured to remove the VAT but no action till now be taken to resolve the issue. This lead to slow crushing in the mills and low availability of

meals in the open market. The price is expected to remain on the higher levels in coming days, as there are very low stocks left and stocks in stronger hand. Exporters are not getting the enough meal to export. GN meals (40%) by cash were at Rs 6550 and (45%) at Rs 7150 per MT on cash in Saurashtra.

#### INTERNATIONAL MARKET

##### CBOT Soy Futures Improved on Speculation

July Soybeans settled up 2.75 cent at \$6.065/bushel, 8 cent off the high and 2 cent up from the low. November Soybeans settled up 3 cent at \$6.2525/bushel, which was 2.50 cent up from the low and 5.75 cent off the high. July Soymeal settled up \$1.3 at \$178.6/ton that was \$0.3 up from the low and \$1.9 off the high. July Soybean Oil closed up 0.22 cent at 25.53 cent/pound, 0.22 cent off the high and 0.13 cent up from the low. Firmness in grain markets provided strength to the soybean combined with strong support from other commodity market. Farmers protest still continue in Brazil and marketing chain was disturbed which results into meager supply of beans into the market. US futures thus got support from Brazil in anticipation that some business might shift to the US as the Brazil exporters could not be able to fulfill the commitment for export.
