DOMESTIC MARKET

Soy meal

Spot market prices remain steady at most of the centers and waiting for any fresh news to act on. Moderate arrivals for consecutive two days further added to its positive tone. Prices are likely to hover the same level unless there could be any news related to exports. Weak demand of the meal in export front had a bearish impact on the market. Stagnancy in demand is mainly due to no fresh agreement on the export front and likely to continue the situation for some more time. Sluggish activities could be noticed in various ports and waiting for some new vessels to arrive. The prices at this stage stuck in absence of any fresh news. Thinning up in demand of the meal in export front had a bearish blow on the market. Bearish sentiments at CBOT also had a bearish impact on the market. The meal price is waiting for any fresh news to act upon.

Groundnut meal

Domestic consumption of groundnut meal continues to show a sluggish growth along with prospects for exports are not bright in the current scenario. Standstill condition persists in the prices of groundnut DOC. Groundnut meal is the principal raw material for the preparation of groundnut DOC. there was a degree of skepticism in the estimate, as trade experts were not so optimistic about the crop size this year According to traders Monsoon may play a crucial role in the market in coming days, as there are chances to increase in demand in rainy season. Low crushing of seeds results into scarcity of the meal and DOC. The prices are expected to hover around the same level. The prices of groundnut meal (40%) by cash basis varied between Rs. 7000 while 45% ranged between 7500 per MT in Saurashtra.
