

MAJOR ACTIVITY HIGHLIGHTS

- Soymeal Moved Slightly Upward due to shortage of seeds and increase in its price
- Soymeal Futures Witness No Trading

DOMESTIC MARKET

Soy meal

Soy meal prices at various locations are stable and traded range bound with slight upward movement in some places today. Spot market at Indore remains steady. The demand will remain as such and there is no fresh news in the market. The activities at the port remain sluggish and waiting for any fresh demand to trickle in. The futures market witnessed no trading till now. Prices are likely to hover the same level unless there could be any news related to exports. Weak demand of the meal in export front had a bearish impact on the market. Stagnancy in demand is mainly due to no fresh agreement on the export front and likely to continue the situation for some more time. Sluggish activities could be noticed in various ports and waiting for some new vessels to arrive. The prices at this stage stuck in absence of any fresh news.

Current vessel positions in different ports

'Eastern Sea' is arrived at the port to load 11,500 MT of SBM to Vietnam. Shantilal agents will be handling the vessel. Khamgaon	4100	4150
Rudrapur	4200	4200
Parli/Latur/Nanded	4350	4400

Groundnut meal

The prices of the groundnut DOC moved range bound today. High demand from dairy industry in Gujarat, huge demand from the poultry industry from Punjab and Haryana helped to lift the prices up. Groundnut meal is the principal raw material for the preparation of groundnut DOC. Low crushing of seeds results into scarcity of the meal and DOC. The prices are expected to hover around the same level. The prices of groundnut meal (40%) by cash basis varied between Rs. 7000-7100 while 45% ranged between 7400-7500 per MT in Saurashtra.

INTERNATIONAL MARKET

CBOT Soy Futures Settle Mixed:

July Soybeans settled down 2 cents at \$5.8575/bushel, 6.75 cent off the high and 2.25 cent up from the low. November Soybeans settled down 1 cent at \$6.1525 /bushel that was 4 cent up from the low and 5.0 cent off the high. July Soymeal settled down \$3.5 at \$176.6/ton, which was \$0.6 up from the low and 4.4 off the high. July Soybean Oil closed up 0.21cent at 24.86 cent/pound, 0.08 cent off the high and 0.24 cent up from the low. Soyoil witnessed a high close and the outlook for good rains this weekend helped to limit the advance of soybean and meal. Good weather forecast for the Midwest soybean crop results into the weakness in the sentiments as weather looks favourable for the early crop growth. Sell -off in corn and wheat market after a bullish USDA production forecast further added to its bearish tone. The USDA projected world ending stocks for the season 2005/2006 at 570 million bushels as compared with trade expectation near 571 million bushels (range 560-580) and compared with last month's record high ending stocks at 565 million bushels. The USDA projected world ending stocks for the season 2006/2007 at 655 million bushels (range 625-725).

WEATHER WATCH

The weak monsoon conditions with subdued rainfall activity still continue to prevail over south Peninsula and east India.

However, fairly widespread rainfall activity has occurred over northeastern States with isolated heavy to very heavy falls over Assam & Meghalaya and Arunachal Pradesh. This type of situation is likely to continue for next 4-5 days, as there is no signature for the revival of southwest monsoon. Under persistent dry weather conditions, heat wave conditions continue to prevail over north Rajasthan. The day temperatures over rest of plains of northwest India, Uttar Pradesh and adjoining Madhya Pradesh are prevailing between 42-44°C. Dust raising winds are prevailing over the plains of northwest India. * Yesterday's western disturbance as an upper air cyclonic circulation now lies over Jammu & Kashmir region extending upto 2.1 km a.s.l.

NORTH-WEST INDIA: Isolated rain/thundershowers are likely over Jammu & Kashmir. Dust raising winds will prevail over the plains. Mainly dry weather is likely over the rest region. Day temperatures are likely to remain around 42-44 °C over the region.

EAST INDIA: Rain/thundershowers are likely at a few places over Sub Himalayan West Bengal & Sikkim. Mainly dry weather over the rest region. However isolated pockets over Gangetic West Bengal and Orissa may experience rain/thundershowers. Day temperatures are likely to increase by 2-4°C in the region.

NORTHEAST INDIA: Rain/thundershowers are likely at many places over the region with isolated heavy to very heavy falls

SOUTH INDIA: Rain/thundershowers are likely at a few places over Andaman Islands and Coastal Karnataka and isolated over Kerala and Lakshadweep. Mainly dry weather over the rest region.

WEST INDIA: Isolated rain/thundershowers are likely over Konkan & Goa. Mainly dry weather is likely over the rest region. Day temperatures are likely to increase by 2-3 °C.

CENTRAL INDIA: Isolated rain/thundershowers are likely over Chhattisgarh. Mainly dry weather is likely over the rest region. Day temperatures over the region are likely to increase by 2-3°C.

Heavy rainfall warning: Isolated heavy to very heavy rainfall is likely over northeastern States.

Outlook for subsequent two days based on ncmrwf and other numerical weather products: Subdued rainfall activity is likely to prevail over the country outside northeastern states.
