October 10<sup>th</sup>, 2006

### MAJOR ACTIVITY HIGHLIGHTS

- Soymeal Markets Remained Steady
- Mustard Meal Weak on Poor Demand

### DOMESTIC MARKET

#### Soy meal

Soy meal sentiments remained weak on fresh arrivals amidst steady demand. The domestic demand remained steady whereas, according to the Solvent Extractors' Association of India export of Soybean meal jumped from 721,900 tons to 975,975 tons this year. The stock position is good. The peak arrival is likely to after Dipawali.. The fresh new arrivals is reported 35000 bags whereas carry forward stocks is almost 1 lakh tones (according to traders). Crushing is continued but at some lower amount. China scrapped an import duty on Indian soymeal and this led to wide the export market to China. However, India's export of soymeal to Pakistan is likely to drop in the marketing year starting October due to the drop in the coming days due to the reason of rising the extraction of canola seeds in Pakistan. However, the Indian soymeal has good export demand for poultry feed due to its nutritive value.
