RED CHILLIES

SPOT MARKETS

Red chillies prices in Guntur market remained at their previous levels. The market saw slightly increased arrivals and the off take was near around 50 - 70 percent of the day's inflow. According to trading sources the market has demand from export front particularly from Bangladesh, Srilanka and Malaysia. Trading sources are expecting demand to improve but the market has sufficient stocks of chillies despite high exports this year. However sources from Madhya Pradesh informed the production in the state might increase to around 30 lakh bags of chillies this year as against last years 6 lakh bags of chillies. Markets still has confusion and fears regarding quality of chillies with the exchange. The new crop is delayed and is expected to arrive by the month of February. The prices are likely to remain steady to range bound for a few days.

FUTURES MARKETS:

Chilli prices continued to trade bearish on speculative selling coupled with some bearish views from spot markets. NCDEX near month contract of red chillies extended losses to make a new low of Rs. 5041 a quintal. The contract started low at 5305 a quintal and thereafter prices dropped down to fresh lows and settled down in red at Rs. 5066. The volume numbers increased to 14155 MT as against Wednesdays just 4700 MT of chillies.

PRICE DRIVERS:

Bullish:

1. Depleting stocks
2. Delayed Crop
3. Increasing export and domestic demand

Bearish:

1. Concerns of availability of inferior quality stock from exchange
2. Forthcoming crop is expected good due to higher acreage

Weather:

Rain/thundershowers are likely at many places over Andaman & Nicobar Islands, Tamil Nadu & Pondicherry, Kerala, South Coastal Andhra Pradesh and Lakshadweep; at a few places over North Coastal Andhra Pradesh and Rayalseema & isolated over the rest region outside North Interior Karnataka and Telangana where weather will be mainly dry. Increase in rainfall activity over the region from 28th onwards. The sources informed rain fed chilli crop requires water at this stage however prolonged rains at this stage might delay the maturity of crop.

TECHNICALS

Long dark candlestick in a downtrend is reflecting bearish sentiments in the market. Stochastic has made a bearish crossover in neutral region. MACD is falling in negative territory. Prices closed below 9-EMA reflecting presence of bearish sentiments in the market. Prices are most likely to remain volatile with bearish inclination.

JEERA (Cumin)

SPOT MARKETS

Jeera market in Unjha remained closed today. The prices recovered slightly & then turned steady before closing of markets on almost similar demand supply scenario. Sowing of jeera has been delayed this year in both Gujarat and Rajasthan due to unfavourable climatic conditions in the region. The sowing is expected to begin in about a week's time. In addition to this, acreage is also expected to shrink in Gujarat on shifting preference of farmers towards other crops Jeera crop is highly weather sensitive and high prices of these commodities are attracting the cultivators. Unjha market will reopen on 27th. Trading sources are expecting demand to improve from both domestic and export fronts. On the reopening Jeera prices might remain steady to range bound and thereafter witness some strength.

FUTURES MARKETS:

Jeera prices declined on profit booking following Wednesdays speculative buying. NCDEX November futures contract opened firm at Rs. 9058 and thereafter the prices increased to touch the high of Rs. 9151 and thereafter declined to the lows of 8861 a quintal. The trading for the day settled at Rs. 8914 a quintal that was still above the important support of Rs. 8900. Volumes traded during the session diminished to 14286 MT as against previous sessions 19278 MT of jeera.

PRICE DRIVERS:

Bullish:

1. Unfavorable weather likely to delay sowing with possibility of reduced acreage.
2. Expectation of improved domestic and export demand.
3. Unjha market Closed in celebration of festivals

Bearish: 1. Comfortable stock

Weather: Mainly dry weather is likely over the region. Dry & hot Climate is not suitable for sowing of jeera at present. This is delaying sowing of the forth-coming crop. Rains at this stage might help in sowing.

TECHNICALS
