rapeseed meal is an important constituent as additive in feeds for livestock industry. Rates improved slightly due to increase in consignments for rapeseed meal for export purpose. The demand from feed industry is likely to pick up pace by second fortnight of November. As per SOPA, rapeseed meal export increased from 372,375 tons to 525,075 tons, thanks to availability of rapeseed during off-season from NAFED, which not only boosted the crushing and oil availability but also increased availability of rapeseed extractions, lead to boost the export of rapeseed meal. South Korea a traditional importer of rapeseed meal bought nearly 198,000 tons of rapeseed meal.
