Soy meal

Good buying support, ready availability of soymeal at processors end against firm port delivery rates helped solvent units dispose off meal in bulk. As per market observers, solvent units have good quantity of meal for ready disposal against good crushing of beans during the previous month. Amidst firmness in soymeal and better rates offered for the meal, most of the units disposed off meal at prevailing market prices. New vessels are waiting for berth at different ports to load SBM to destined nations. As per official release from Solvent Extractors Association of India, exports of soybean extract for month of January registered at 5.05 lakh tonnes was almost steady against the sales of 5.06 lakh tonnes for Dec 2006.
