

## WHEAT DAILY

22<sup>nd</sup> May, 2007

### SPOT MARKETS:

#### Punja, Haryana, U.P. and Rajasthan Contribute for Procurement - Private Trade Active in Other Centres

Wheat procurement by Government surpasses 10 Mln Tonnes and as on May 18 it stood around 10.3 Mln Tonnes. The Centre had bought a total of 9.22 Mln Tonnes of the food grain last year. The trend is rising the hopes that Govt. will be able to procure around 12 Mln Tonnes of the food grain this year. Procurement has been steadily increasing since the past two weeks after the government announced import tenders and ruled out an increase in the minimum support price or an incentive bonus. The govt. is also likely to import around 3-4 Mln Tonnes foodgrain to build enough stocks so that it can intervene in the market if prices rise. Arrivals across the country are also improving in the last week and touches around 13.12 Mln Tonnes so far likewise same period of previous year. The tender of Government of India to purchase 1 Mln Tonnes of wheat from global market is unlikely to create much interest due to higher global prices and higher freight rates. It is expected that purchase may be lower as against the prior announcement of 1 Mln Tonnes. Increase global price of the commodity and rising freight rates resulting into costlier import this time. The Centre may receive offers at between \$265-\$282 a metric tonne to import 1 million tonne wheat as compared to an average \$205.31 a tonne paid last year. The Baltic Dry Index, an overall measure of commodity- shipping costs, has risen 48% this year. US eyes 1 Mln Tonnes of wheat sales to India. India is also likely to import US wheat if the commodity able to meet quality standards and price competitiveness. However, higher freight charges are prominently hindering the import from the country.

Total arrivals in Delhi markets stood down around 20,000-25,000qtls and prices at Lawrence Road were quoted steady at Rs. 920-925 per quintal with arrivals about 7500 qtls for ready delivery (truck loaded). At Narela and Najafgarh markets the price remains 887-895/qlt, and 870-885/ qtl respectively (loose basis) on the back of arrivals 5000qtls and 5000qtls respectively. Local flour millers and ITC are active in the markets. Karavali market witnessed arrivals around 2500qtls and price remained Rs.850/qlt. At Achnera market wheat trades at Rs.850/qlt on the back of arrivals around 1500 qtls

Following was the status in other mandis, with active millers and private trade buying:

Mathura	4000 Qtls	Rs.875-880 per qtl
