

## SUGAR

June 2, 2007

### MARKETS

Spot sugar prices remained steady at the major markets of Delhi, Muzaffarnagar and Kolkata on subdued trading activity. The Centre has fixed open sale quota for June at 1.6 MMT, up 23% on year to bring down mounting stocks and ensure adequate supply in the local market. The early arrival of monsoon may force the sugar factories in Maharashtra and Karnataka to shut down their operations, leaving about 3 mt of sugarcane uncrushed. India's oil minister has said that legislation for blending 10% ethanol into all commercial fuels will be introduced within four years. This will result in an annual procurement of 550 million litres of ethanol. Brazil is expected to produce 528 million tons of sugarcane in the new 2007-08 crop, with 88.7% of it (468.2 MMT), destined for sugar and ethanol industries. No major uptrend in sugar is expected in the medium to long term owing to bumper crops from Brazil and India.
