SPOT MARKETS

Sugar traded firm at the major spot markets on bullish sentiments following the announcement of the relaxation of controls over export of sugar and GoM decision to mandate 5% ethanol blending in petrol. Centre has formally lifted the controls over exports of sugar by doing away with govt. permits and quantitative limits. The mills are free to export as much of volume they wish to. The group of ministers has given its approval for mandatory extension of 5% ethanol blending in petrol throughout the country. However, no decision has been taken on crucial proposals of financial and debt-restructuring measures for sugar mills. The sugar prices are expected to get some support once the package for sugar mills is announced. However, the medium to long term outlook on sugar remains bearish, given the glut situation.

Increased selling pressure at the higher levels pushed the prices down to test an intraday low of Rs. 1319/qrtl, before settling at Rs. 1320/qrtl. The volume and open interest of the contract dipped significantly as compared to the previous day. The August contract opened at Rs. 1305/qrtl and traded in the range of Rs. 1296-1314/qrtl, before closing at the day's low of Rs. 1296/qrtl.
