### REFINED SOY OIL

#### SPOT MARKET:

Despite firm BMD CPO futures and firm tone in other edible oil, spot prices of refined soy oil traded on softer side on weak demand. Crude palm oil futures continue to trade firm on Friday amidst expectation of good exports demand major importing nations (India and China) on Bursa Malaysian Derivatives. The most active October contract of CPO futures finished up MYR15 at MYR2,583 per tonne. However, gains were limited by overnight bearish soy oil future on CBOT and declined in crude oil futures.

### Domestic Spot Market Highlights

With lack of supportive news, traders were forced for profit-taking resulting thin trade activities in Indonesia.
