

POTATO DAILY

27th July, 2007

SPOT MARKETS:

Domestic potato prices got steady on Thursday at the spot market except Bengal on average demand against the restricted arrivals. However, the fresh potato from Himachal Pradesh has also hit the market. Presently, arrivals have been less than what it was during the corresponding period last year mainly as lower production as well as bad weather conditions. Traders said, potato supply would improve in August due to higher stocks at the cold storages. Meanwhile, the sowing of potato in Karnataka is getting momentum due to good weather condition and the Hasan crop is likely to hit the market only by August end. Traders said, so far around 30-33% of potato has been released in Agra of U.P. and West Bengal from the cold storages. Therefore, the remaining part of the potato is expected to be released in the next three to four months so the arrivals will be increased at the spot markets, which will likely to dampen the domestic requirements. So, the prices are not likely to go up in near future in the spot as well as futures market. In Delhi sabji mandis, the fresh new potato has been arriving from Shimla and Haldwani and old crop from U.P. On Thursday, potato prices in North Indian markets offered steady while in Bengal's Burdwan and Tarkeswar, prices quoted down at Rs. 710-750 and Rs. 730-750/qrtl respectively on weak demand and higher arrivals.
