Domestic Market Recap

In Wednesday's trading, Wheat prices traded steady to slightly down in the wholesale grains following increased arrivals against reduced offtake from the consuming units. However, roller flour millers' prices traded down slightly despite the festive season ahead against good supply. Better supplies against fall in demand from rolling flour mills slightly pulled down wheat prices, traders reported. The prices of different wheat products remained quoted steady as, Atta quoted at Rs.1073/90kg. Maida and Sooji traded at Rs.1256/90 kg and Rs.710/50 kg bag respectively. Total arrivals in Delhi (Lawrence Road) were increased slightly and stood around 8,500 qtls and prices quoted steady at Rs.1010 per quintals. No trade took place at Narela and Najafgarh markets. The prices traded down at Rs.940/qtl of Mathura (loose) against lower offtake whereas priced traded up at the range of Rs.10/qtl at Kota and Kanpur against a tighter supply situation. The wheat prices were traded up in Rajkot market and quoted at Rs.965-970/qtl against the increased supply of 400 qtl. Government has already chalked out the strategy of wheat import month-wise and port-wise. PMO also turned down a request of Ministry of Food for the floating of a domestic tender to import wheat. STC has appointed NCMSL to gather market intelligence and make recommendations on the volumes and timing of tenders.

Domestic Spot Market Prices

Market	Variety	Prices (Rs/qtl)		Change	Arrivals (Qtls)
		21.08.07	22.08.07		
Delhi (Lawrence Road) Ready Delivery	Mill quality	1010	1010	-	8,500
Delhi (Narella) Loose	Mill quality	968-970	-	-	-
Haryana (Palwal) Loose	Mill quality	935	935	-	700

International Market Recap

CBOT Wheat Futures Settled Mix

CBOT wheat futures settled higher Monday. December Wheat finished up 13 cent at \$704 per bushel; this was 4 off the high and 8 up from the low. September Wheat closed up 16.5 cent at \$691.5 per bushel. This was 9.5 up from the low and .5 off the high. Market traded with firm sentiment despite the weakness in Soybeans and the news of the overbought market. The lower aggressive selling supported firm market sentiments. Market surged with the higher sale of 450,000 tonnes of wheat to Egypt before the opening with 240,000 tonnes of soft red from the US and the rest from Russia. Egypt has also issued a tender to buy 110,000 tonnes of optional-origin milling wheat. 73% of the US spring wheat crop is harvested till date, which is quite higher compared to 54% of the last 5-year average of the corresponding period. Canada will release its wheat production forecast by Thursday. Traders also estimate that the global wheat prices will come down with the arrival of new Australian wheat crops from the 11 years high.

News Analysis

Wheat Imports will be continued: Union Agriculture Minister

According to the Union Agriculture Minister, India's wheat import process will be continued to raise the reserves. The state-run reserves run a deficit of 4 million tonnes after the government bought 11.1 million tonnes of wheat from the local farmers. Central government buys rice and wheat at assured prices from farmers for sale at subsidized rates.

STC Appointed NCMSL to Study Global Wheat Markets

As per the report of government official, India is likely to issue a series of tenders for the import of less than 500,000 MT wheat each in next few months. The State Trading Corporation of India Ltd. has appointed National Collateral Management Services Ltd. (NCMSL) to gather market intelligence and make recommendations on the volumes and timing of tenders. At present, India is keenly watching the global wheat prices. The tenders are likely to be issued after the NCMSL's recommendation and the tenders may be open-ended. The open-ended tenders are likely to be issued because seeking between 1.0 million tonnes and 2.0 million of tonnes wheat in a tender and then buying only around 500,000 tonnes contributes to pushing up global prices. The government is planning to seek some of the shipments in containers instead of cargoes in bulk as these might be a little cheaper in terms of freight costs.

India Re-works Wheat Import Plans

The Prime Minister's Office turned down the Food Ministry's request for domestic wheat tender. The official in the Ministry said that a tender would be floated for the month-wise and port-wise supply of wheat. The ministry has worked out a tentative delivery of 5.93 lakh tonnes of the wheat in November, 8.5 lakh tonnes in December, 7.15 lakh tonnes in January, 8.45 lakh tonnes in February, 8 lakh tonnes in March and 8.14 lakh tonnes in April. 1.28 lakh tonne delivery in September and 2.56 lakh tonne in October has already been contacted. To reduce the freight charges, Ministry is planning to bulk import. According to the Ministry's plans, near about 20 lakh tonnes of wheat would be delivered at the Mundra port. Close to 7 lakh tonne would be contracted for Kakinada and Kandla ports whereas Chennai port would receive 6 lakh tonnes. Tuticorin, Vizag and Mumbai ports are the other ports where delivery can be taken place. The entire 50-lakh tonnes amount will be delivered in maximum 120 shipments through the contracted months.

Weather Impact Analysis

Harvesting of wheat is complete in the country. So weather is not a major concern. However, heavy rains may affect the market arrivals.
