

## POTATO DAILY

20<sup>th</sup> AUGUST, 2007

### SPOT MARKETS:

Potato prices were steady to up on Saturday at most of the trading centre amidst average demand supply. Arrivals of new potato from Hassan in Karnataka are getting momentum, and it is affecting the demand of potatoes from Agra region and West Bengal region. The arrivals are likely to pick up during second week of August. Farmers in Hassan taluk of Karnataka are now worried because the entire potato crop is affected by dreaded blight disease and heavy rains. In Hassan district, potato is a major commercial crop grown in more than 1 lakh acres of land. Around 20% of the crop was damaged because of heavy rains even as another 40% would perish because of a fear of blight attack. It is expecting that the potato production will reach to 1.3 MMt in the State. In addition, higher prices of other vegetables also underpinned the potato market. Fresh potato from Himachal Pradesh has been arriving in the market. Traders said, so far around 35-40% of potato has been released in Agra of U.P. and West Bengal from the cold storages. The remaining part of the potato is expected to be released in the next 2-3 months so the arrivals will be increased at the spot markets, which will likely to dampen the domestic requirements. So, the prices are not likely to go up in near future in the spot as well as futures market. On Saturday, potato prices in North Indian markets quoted steady while in Bengal's Burdwan and Tarkeswar, it quoted up at Rs. 750-770 and Rs. 770-790/qlt respectively.

### FUTURES MARKETS:

MCX potato futures rebounded to up on Saturday amidst buying support at lower level and short covering. Most active Agra September futures opened up at Rs.627 over the last close of Rs.624.80 and climbed Rs.11.80 at Rs.636.60 and traded within Rs.625.60-638.40. Tarkeshwar September futures opened strong at Rs.670 over the last close of Rs.667.70 and added Rs.13 at Rs.680.70 with moved between Rs.670-682.80.

### PRICE DRIVERS:
