

OILMEAL

25th December 2007

MAJOR ACTIVITY HIGHLIGHTS

- Soy meal witnessed steady sentiments

DOMESTIC MARKET

Soy meal

Soymeal spot prices remained steady on Monday. The soymeal sentiment remained firm amid continued overseas demand of Indian origin meal. There is a strong overseas demand of soy meal of Indian origin especially from South-Asian countries. Soybean spot plant delivery rate (Indore) is record high between Rs.1950-2000/mt. At Indian ports the FAS meal price is fetching \$406-409 which has improved from previous level of \$398-402. At CBOT soybean futures rallied setting new 34-year contract highs from same long term factor, supportive underlying fundamentals and technical strength kept bullish traders enthused. Apart from it higher prices for Malaysian palm oil on supply concerns and higher crude oil prices were supportive factors to the market at CBOT. However, January meal contract could not end up as expected at CBOT. The absence of any significant selling helped extend the gains, as sellers remain unwilling to stand in front of the bullish trend. Overall activity lacked intensity despite the double-digit gains, with some traders evening out positions ahead of an extended break during the holidays.

Rape/ Mustard Meal: -

Prices of mustard oil cake at Jaipur and other regional/local markets were firm on Monday. At Jaipur, mustard meal traded between the price range of Rs.1912-1913/MT on Monday compared to the price level of Rs.877.50/MT on Saturday. However, According to a senior official of the National Agriculture Cooperative Marketing Federation (Nafed), the government agency for price support scheme (PSS) in oilseeds, the procurement of mustard is likely to be low in the rabi marketing season next year, though the minimum support (MSP) of mustard has been raised from Rs.1,715 to Rs.1,800 a quintal. Nafed is currently focusing on packaged oil. Presently the mustard prices are in the range of Rs.2,200-2,300 a quintal. Mustard sowing in the ongoing rabi season is lagging behind at 5.72 million hectares (as on Dec 14) against 6.42 million hectares last year and the production is likely to drop this year. Nafed at present has a stock of 350,000 tonnes of mustard seed. It is selling 30,000 tonnes every month as seed while processing another 40,000 tonnes into oil. As per Solvent Extractors Association of India's rapeseed/mustard meal exports have increased to 79,250 tonnes during April-November period this year from 68,250 tonnes in corresponding period last year.

Groundnut DOC: -

Spot groundnut complex witnessed firm trade on Monday, amid good physical demand. However, lower Rabi acreage of 2.41lha against 2.79 last year is likely to support the prices in near term besides news report that country has resumed groundnut oil exports. Meanwhile, country has resumed exports of groundnut oil after a long gap of around 2 years, on the back of increased Kharif output. However, the volumes shipped may remain thin because of low profitability on the back of lower groundnut prices in international markets, which further pressured the domestic prices as the demand from exporters remained subdued in the market. However, around 15,000-20,000 tonnes have already been contracted and most shipments so far are destined for European and Chinese ports in containers as well as in bulk. Export orders signed so far include delivery of 5,000 tonne of groundnut oil at a price of \$1,745/MT, basis cost and freight, to be delivered to Dunkirk port in France. Expectation of higher meal export this year following lower crop globally and bumper production this Kharif season in the country is also expected to support the sentiment. The prices of groundnut seeds for different qualities were weak on Monday at price level of Rs. 520-521 per 20 compared to the price levels of Rs.521-522 per

20 kg on Saturday in different markets of Gujarat. In Rajkot market groundnut oil was traded weak at the price level of Rs.670-671 on Monday compared to the price of level of Rs. 673-674 per 10 kg on Saturday. The Solvent Extractors' Association of India has compiled the data for export of oil

meals for the month of October 2007 and reported at 200 tons. During April to October 2007, around 12,475 MT of groundnut meal was exported compare to 12,275 MT of groundnut meal in April-September 2007 period. No exports were witnessed for the month of November 2007.
