

OILMEAL

17 December 2007

MAJOR ACTIVITY HIGHLIGHTS

- Soy meal witnessed firm sentiments

DOMESTIC MARKET

Soy meal

Soymeal prices were firm at major markets on Saturday following increase in port prices coupled with firm soybean complex at global and domestic markets. At ports soymeal is fetching US \$400-01 FAS. The lower than expected NOPA crush report in November remains supportive to soy complex. Although, USA soybean acreage is projected to go up by 6.3 million acres to 70 million acres vis-à-vis last year's 63.7 million acres. But, it is less likely to cover the expecting depletion in soybean ending stocks in 2008/09 to record low level. The basis is farmers reluctant to soybean than other remunerative crops like corn. To avoid this condition, USA would have to plant more 8-9 million acres in addition of projected. Besides, energy bill released by US Senate that would mandatory bio diesel production 5-times to 36 billion gallons. Besides, favorable weather conditions in South America which is vital for growing crop pressured the market to close mixed.

Soybean DOC: - rates at different centers

Places	Ex-factory rates (Rs/ton)		
	15.12.07	14.12.07	Parity To
Indore (MP)	14500	14200	Gujarat, MP
Kota	14000	13800	Rajasthan, Del, Punjab, Haryana
Nanded/Latur	14000/14300	14000/14300	Andhra, AP, Kar, TN
Dhulia/Jalna	14600	14600	Mumbai Maharashtra
Nagpur (41/45)	13800-14100	13600-13900	CG, Orissa, Bihar, Bangladesh, AP, Kar, TN

Current vessel positions in different ports: -

Kandla: -

Vessel **MV Stella M** was expected to arrive on 07.12.07. It would load 8,000 MT of SBM. Seacrest agent is handling the vessel.

Vessel **M.V. GULF PRIDE** was expected to arrive on 14.12.07. It would load 8,400 MT of RSM. Seacrest agent is handling the vessel.

Vessel **M.V. FUSHIMI** has berthed on 08.12.07. It would load 14,500 MT of SBM/RSM. Taurus agent is handling the vessel.

Mumbai:-

Vessel **Badulu Valley** - VI has arrived on 07.12.07. It would load 3400 MT of SBM. Sai Freight P.Ltd. is handling the vessel.

Rape/ Mustard Meal: -

Prices of mustard oil cake at Jaipur were firm on Saturday in regional/local markets. At Jaipur, mustard meal traded at Rs.847.50/MT on Saturday which up on Friday's level of Rs.842.50/MT. However, India's rapeseed crop is showing minor signs of recovery after receiving rains in the major growing areas of Rajasthan and Madhya Pradesh. According to the head of the country's largest rapeseed oil extraction company the overall production is expected to be lower this year due to a sharp fall in acreage. Crop prospects is expected to marginally improved due to the late showers in Rajasthan and Madhya Pradesh and the production is estimated at around 5.2 million to 5.3 million metric tons against the previous estimates of less than 5.0 million tons. India's rapeseed production this year is around 5.8 million tons compared to 6.8 million tons the previous year. India's rapeseed production is crucial for determining the country's overall edible oil imports as the oilseed has higher oil content. According to the latest government data, India's rapeseed acreage is down around 12% as of first week of December at 5.59 million hectares. The higher MSP of other commodities like wheat and pulses in comparison to mustard, by the government, this year has diverted the farmers of rapeseed growing area towards wheat at the same time unusually warm weather at the showing time kept farmers away from the oilseed. As per Solvent Extractors Association of India's rapeseed/mustard meal exports have increased to 79,250 tonnes during April-November period this year from 68,250 tonnes in corresponding period last year.

Groundnut DOC: -

Spot groundnut complex sentiment were firm on Saturday amidst firm physical demands, considering the lower Rabi acreage of 2.41lha against 2.79 last year is likely to support the prices in near term besides news report that country has resumes groundnut oil exports. Meanwhile, country has resumed exports of groundnut oil after a long gap of around 2 years, on the back of increased Kharif output. However, the volumes shipped may remain thin because of low profitability on the back of lower groundnut prices in international markets, which further pressured the domestic prices as the demand from exporters remained subdued in the market. However, around 15,000-20,000 tonnes have already been contracted and most shipments so far are destined for European and Chinese ports in containers as well as in bulk. Export orders signed so

far include delivery of 5,000 tonne of groundnut oil at a price of \$1,745/MT, basis cost and freight, to be delivered to Dunkirk port in France. Expectation of higher meal export this year following lower crop globally and bumper production this Kharif season in the country is also expected to support the sentiment. The prices of groundnut seeds for different qualities were firm on Saturday and traded between the price range of Rs.516-517 per 20 kg in different markets of Gujarat. In Rajkot market groundnut oil was traded firm at Rs.673-674 per 10 kg on Saturday. The Solvent Extractors' Association of India has just compiled the data for export of oil meals for the month of October 2007 and reported at 200 tons. During April to October 2007, around 12,475 MT of groundnut meal was exported compare to 12,275 MT of groundnut meal in April-September 2007 period. No exports were witnessed for the month of November 2007.

CBOT Soy Meal Futures as on December 15, 2007 [Open Auction]

Month	Open	High	Low	Close	Chg
Dec07	322.50	324.50	321.00	324.50	+3.3
March 08	328.00	336.20	327.70	332.10	+4.4

Monsoon Outlook (15.12.07)

Chief Features:

- Yesterday's well marked low pressure area over southwest Bay of Bengal and adjoining coastal areas of south Tamil Nadu & north Sri Lanka has become less marked. However, a cyclonic circulation lies over Comorin area and adjoining south Tamil Nadu and Kerala. Under its influence, fairly widespread rainfall with isolated heavy fall is likely over Tamil Nadu and Kerala during next 48 hours. Scattered rain/thundershowers are also likely over Lakshadweep during the same period.
- The current meteorological analysis and numerical weather prediction models suggest fall in minimum temperatures by 2-3°C over plains of northwest India, Gujarat, Rajasthan and central India during next 2-3 days. Cold wave conditions are likely to develop over some parts of plains of northwest India, Rajasthan and Gujarat during the same period.
- The lowest minimum temperature was recorded 1.6 °C at Amritsar in the plains of the country.

Outlook for subsequent two days from 1430 hours IST of 18^h December, 2007 (Based on numerical weather products):

- Isolated rain/snow is likely over Jammu & Kashmir and Himachal Pradesh.
- Isolated to scattered rainfall activity is likely over extreme south peninsula.
- Cold wave condition is likely over Rajasthan, Gujarat and plains of northwest India.
