

SPOT MARKETS:

Cotton prices slight declined on Wednesday in North Indian market but it was almost steady in western markets amidst good demand from exporters and millers despite improved supplies. At present, Pakistan, China, Bangladesh and other countries are favouring Indian cotton due to lower rate and good quality. Recently, Pakistan permitted the import of 5-lakh bales of cotton from India, which is the leading factor for prices rise. They reported that short-staple cotton has been allowed through land routes via the Wagah border. But, the demand from the textile mills are remaining weak as compared to last year due to rising rupee over US dollar and weak demand for yarns and other cotton made products, traders said. Besides, in Gujarat, the assembly election has negatively impacted in the market, which pulled down the arrivals. On the export front, around 2 million bales have already exported to date and have contracts for 2.5-2.6 mln bales, traders said.

CCI estimates that cotton production will be around 30 million bales this season over 27 million bales in 2005-06. Out of this, above 6.5 million bales are estimated to be export to China, Bangladesh, Pakistan, Indonesia and other countries. Local demand is estimated at close to 24 mln bales while closing stocks at 4.2 mln bales. USDA put world production at 118.76 mln bales in 2007-08, 0.60 mln bales lower than November due to lower crop in U.S, Pakistan and China.

On Wednesday, Shankar-6 28 mm delivery offered steady at Rs.20000-200/candy in Gujarat. J-34 cotton traded weak at Rs.1925-2010/maund in Haryana and Rs.2030-2075/maund in Punjab respectively. In the country, daily arrivals are reported to be up at 215,000 bales. Out of this, Maharashtra contributed 55000 bales while Gujarat's share was about 80000 bales.
