MAJOR ACTIVITY HIGHLIGHTS

- Soy meal witnessed steady to firm sentiment

DOMESTIC MARKET

Soy meal

Soymeal spot prices were steady to firm at major markets on Saturday. Sentiments at Indian ports remained firm today. There is a continued strong overseas demand of soybean and the solvent extracting units are procuring soybean at higher rates expecting good parity. At spot market the soybean prices are above Rs.2000/qrtl on Saturday despite weakness in soy futures market. However, At CBOT soybean futures finished lower as the market is keen towards index funds to sell shortly after the New Year. Traders expect the funds to rebalance their positions by selling thousands of soybean and wheat contracts and by buying corn. According to AgResource Company funds will have to sell 32,000-36,000 contracts of wheat and soybeans and secure 19,000-21,000 contracts of corn. The late pullback in soybean and meal came after the market rose in early trading. Soybean oil finished higher in all the future contracts despite the sharp drops in soybeans and meal. Prices remained in positive territory for most of the day session as spillover support from outside markets. Soybeans are still technically strong after hitting 34-year highs.

Rape/ Mustard Meal: -

Prices of mustard oil cake at Jaipur markets were firm on Saturday. At Jaipur, mustard meal traded between the price range of Rs.912-913/MT on Saturday compared to the price level of Rs.907-908/MT on Friday. As per the first round survey of Agricultural Ministry sowing of mustard seed between October 1 and December 14 was complete in 57.2 lakh hectares against the coverage of about 64.2 lakh hectares during the same period last year. The oilseed sowing is expected to finish next month and the edible oil industry fears that the acreage under mustard seed in 2007-08 rabi season may be lower than the previous season when a total of 72 lakh hectares were brought under oilseed cultivation. The oilseed output this rabi season is expected to fall by about 1 million ton (mt) to 6 mt compared to last year's level of 7.1 mt, according to the estimates of Solvent Extractors' Association of India. According to the industry sources the National Agricultural Cooperative Marketing Federation of India (Nafed) has a stock of 3.5 lakh tonnes. The average daily arrival of mustard seed is about 13-14 tonnes at major mandis, Sirsa, Hapur and Delhi. Recent showers over mustard growing raised some hope of more coverage of the oilseed and prompted traders to take a bearish view. As per Solvent Extractors Association of India's rapeseed/mustard meal exports have increased to 79,250 tonnes during April-November period this year from 68,250 tonnes in corresponding period last year.

Groundnut DOC: -

Spot groundnut complex witnessed firm trade on Saturday, amid good physical demand. However, lower Rabi acreage of 2.41lha against 2.79 last year is likely to support the prices in near term besides news report that country has resumes groundnut oil exports. Meanwhile, country has resumed exports of groundnut oil after a long gap of around 2 years, on the back of increased Kharif output. However, the volumes shipped may remain thin because of low profitability on the back of lower groundnut prices in

international markets, which further pressured the domestic prices as the demand from exporters remained subdued in the market. However, around 15,000-20,000 tonnes have already been contracted and most shipments so far are destined for European and Chinese ports in containers as well as in bulk. Export orders signed so far include delivery of 5,000 tonne of groundnut oil at a price of \$1,745/MT, basis cost and freight, to be delivered to Dunkirk port in France. Expectation of higher meal export this year following lower crop globally and bumper production this Kharif season in the country is also expected to support the sentiment. The prices of groundnut seeds for different qualities were firm on Saturday at price level of Rs.526-527

per 20 kg compared to the previous price level of Rs. 524-525 per 20 kg on Friday in different markets of Gujarat. In Rajkot market groundnut oil was traded firm at the price level of Rs.675-676 per 10 kg on Saturday compared to the previous price level of Rs.672-673 per 10 kg on Friday. The Solvent Extractors' Association of India has compiled the data for export of oil meals for the month of October 2007 and reported at 200 tons. During April to October 2007, around 12,475 MT of groundnut meal was exported compare to 12,275 MT of groundnut meal in April-September 2007 period. No exports were witnessed for the month of November 2007.
