

## Oilseeds Domestic Fundamentals:

Mandis in Madhya Pradesh remained closed today due to mandi elections and no arrivals were reported. Soybean (plant delivery, Indore) prices were quoted unchanged, Thursday. CBOT soybean extended losses on signs of fading demand after China's soybean order cancellation and an outlook of large US soybean plantings next year. Besides, favorable weather conditions in Brazil continue to pressure soybean prices. RM seed prices improved in Jaipur spot market. Reportedly, good RM seed demand is being witnessed from stockists and millers in Jaipur and Ganganagar due to comparatively lower prevailing prices. Demand is also being noticed from Assam, West Bengal and J&K.

## International Oilseeds Fundamental:

Brazilian Association of Vegetable Oil Industries, Abiove, has increased its soybean crop estimate for the current season to a record 81.6 million tons from November's forecast of 81.3 million tons. Reportedly, Ukraine is likely to raise the soybean planting area in 2013 by 20-25 per cent. Ukraine's soybean production is seen at 2.3 million tons from 1.3 million hectares sown this year. It plans to increase the harvest to 4.0 million tons in 2015. According to Oil World, the European Union 2013 rapeseed crop may witness an expected rise to 20.50 million tons from 19.07 million tons in 2012 on increased rapeseed plantings by farmers.

## Outlook:

Soybean plant delivery prices are likely to feature range bound movement on weak buying and fall in the international oils and fats market. However, pick-up in soy meal exports sales and seasonal demand in edible oils may limit downside.
