

Oilseeds Domestic Fundamentals:

Soybean (plant delivery, Indore) prices witnessed weak tone on sluggish domestic buying as major buyers refrained from the market, besides fall in BMD CPO due to bearish palm oil supply scenario, Monday. Soybean arrivals in Madhya Pradesh were reported down at 250,000 bags compared to 325,000 on Saturday. RM seed featured losses in major spot market on feeble buying. As per Ministry of Agriculture, sown area for Rabi mustard seed stood at 57.10 lakh hectares as on 29 Nov. 2012 up 1.18 percent compared to corresponding period last year.

International Oilseeds Fundamental:

According to Safras & Mercado, the 2012-13 soybean plantations in Brazil has been completed in 86 per cent of the expected area in the growing regions, advancing from 76 per cent last week. The pace of plantation has been slower than last year when 93 per cent of area had been planted in the same period. Based on data collected up till November 30, Safras has also reported that the Brazilian soybean growers have sold 50 per cent of the 2012-13 crop in advance. According to Oil World, the EU-27 has raised its total oilseed imports by 4 per cent to a 3-year high of 18.0 million tons in Oct '11 - Sept '12.

Outlook:

Soybean plant delivery prices are likely to trade range bound on bearish cues from international palm oil market for short term. However, pick-up in soy meal exports sales and seasonal demand in edible oils may limit downside.
