

**Oilseeds Domestic Fundamentals:**

Soybean (plant delivery, Indore) prices witnessed mild losses on weak buying activities Wednesday. Besides, choppy trade in CBOT soybean and slightly lower Malaysian palm oil restricted any gains. Soybean arrivals in Madhya Pradesh fell and reported at 225,000 bags compared to 300,000 bags on Tuesday. The farmers are reportedly holding back their produce due to lower prices. Besides, RM seed prices fell pressured by weakness in BMD CPO and feeble buying in cash markets.

**International Oilseeds Fundamental:**

Informa cuts its forecast of Argentina's 2012/13 soybean production to 58.4 million tons, from 59.5 million tons previous estimates. According to China National Grain and Oils Information Center (CNGOIC), China is expected to have produced 12.8 million tons of soybean in 2012, down 11.6 per cent from the previous year. The total soybean plantation area has declined by 9 per cent this year to 7.177 million hectares. Oil World has reported that the US soy oil exports are seen to be approaching around 0.7 million tons in Oct '12 - March '13.

**Outlook:**

Soybean plant delivery prices are likely to feature range bound on weak buying and fall in the international oils and fats market. However, pick-up in soy meal exports sales and seasonal demand in edible oils may limit downside.
