

Oilseeds Domestic Fundamentals:

Soybean (plant delivery, Indore) prices witnessed bullish tone tracking gains in CBOT soybean due to strong Chinese demand and mostly favorable South American weather outlook. In addition, BMD CPO ended positive firming up the prices. Soybean arrivals in Madhya Pradesh fell and reported at 200,000 bags compared to 225,000 bags on Wednesday. The farmers are reportedly holding back their produce due to lower prices. Besides, RM seed prices were up on positive cues from BMD CPO.

International Oilseeds Fundamental:

Oil World has reported that the Brazilian soybean exports plunged to a 21-month low figure of 0.26 million tons in November 2012. Statistics Canada has reported that the Canadian production of canola, a competing oilseed, is likely to be 13.3 million tons, below an average of trade estimates for 13.7 million tons. Informa has cut its forecast of Argentina's 2012/13 soybean production to 58.4 million tons from 59.5 million tons in previous estimate.

Outlook:

Soybean plant delivery prices are likely to feature range bound on weak buying and fall in the international oils and fats market. However, pick-up in soy meal exports sales and seasonal demand in edible oils may limit downside.
