

Oilseeds Domestic Fundamentals:

Soybean (plant delivery, Indore) prices witnessed firm tone on limited market arrivals. Besides, BMD CPO ended positive which further supported the prices, Monday. Soybean arrivals in Madhya Pradesh were reported lower at 150,000 bags compared to 175,000 on Saturday. The farmers have started to limit the selling of their produce due to lower prices. RM seed prices featured losses on expectations of higher mustard acreage in the current Rabi season and sufficient edible oil stocks against subdued demand in the market.

International Oilseeds Fundamental:

The USDA has reported that exporters have sold 115,000 tons of soybeans to China for 2012-13 delivery. The Buenos Aires Grains Exchange has reported that the soybean planting in Argentina has been further delayed by rainfall over the past week. Sowing of soybean in Argentina till now is 54 per cent of the total projected 19.7 million hectares to be planted this season. Oil World has reported that the Brazilian soybean exports plunged to a 21-month low figure of 0.26 million tons in November 2012.

Outlook:

Soybean plant delivery prices are likely to feature range bound movement on weak buying and fall in the international oils and fats market. However, pick-up in soy meal exports sales and seasonal demand in edible oils may limit downside.
