

Oilseeds Domestic Fundamentals:

Soybean (plant delivery, Indore) prices witnessed firm sentiments taking cues from CBOT soybeans which witnessed gains as traders evened up their positions ahead of the weekend and persisting support from lower market arrivals, Saturday. Soybean arrivals in Madhya Pradesh reported lower at 1.0 lakh bags compared to 1.50 lakh bags on Friday. RM seed prices featured slight gains in spot market but witnessed mixed sentiments at NCDEX. Weak RM seed demand has been reported from markets of Delhi and Agra due to sluggish demand from the millers amid diminishing stock. However, good demand is seen in key market centers of Rajasthan such as Bikaner and Alwar, mostly from the regions of Bihar, Assam and West Bengal and is expected to persist in the near term.

International Oilseeds Fundamental:

According to USDA's latest weekly export sales report, the net weekly export sales for soybeans was reported at 87,000 tons and as of Dec. 20, cumulative sales stand at 83% of the USDA forecast for the current marketing year vs. a 5 year average of 68%. Net meal sales came in at 124,700 tons for the current marketing year and 100 tons for the next marketing year for a total of 124,800. Korea Agro-Fisheries & Food Trade Corp has reported that Korea has bought 25,000 tons of US origin soybean from Agro Trading at \$201.40 per ton via a tender closed on Friday.

Outlook:

Soybean plant delivery prices are likely to feature range bound movement with firm bias on seasonal rise in the edible oil and meal demand. The Indore (Plant Delivery) prices are expected to witness 3360 – 3420 levels.
