

**Domestic Fundamentals:**

- The edible oils prices featured steady to weak tone on limited buying. However, groundnut and coconut oil quoted higher.
- Crude palm oil witnessed gains tracking bullish cues from international market and wholesalers covered need based position. However, higher stocks in the South East Asian countries limit excessive gains.
- Refined sun oil remains steady at Chennai on lackluster trade activities and new imported sunflower oil stocks at spot market added to the supplies.
- Rapeseed oil featured losses in expectation of higher mustard acreage in the current Rabi season and sufficient edible oil stocks against subdued demand weigh on the market. As per Ministry of Agriculture, sown area for Rabi mustard seed stood at 60.55 lakh hectares as on 06 Dec. 2012 up 1.59 percent compared to the corresponding period last year.
- Edible oil basket is expected to feature steady to slightly firm tone in the days ahead on seasonal demand for oils. However, bearish international palm oil fundamentals may cap upside.

**International Market Fundamentals:**

- CPO at BMD ended higher on slower than expected growth in Malaysian palm oil stocks for the month of November. Moreover, slight bullish palm oil export figures spur the upside.
- As per MPOB's report, Malaysian palm oil ending stocks rose by 2.3 percent to 25.6 lakh tons compared to the previous month which was 25.0 lakh tons. However, palm oil production fell by 2.6 percent from the month of October.
- Malaysian palm oil products exports for 1-10 December rose 0.4 percent to 516,841 tons compared with corresponding period previous month - Societe Generale de Surveillance. Higher Malaysian palm oil products imports witnessed from Asian buyers. India imported 64,750 tons of palm oil products for the first 10 days of December.

**Outlook:** Edible oil basket is expected to trade with a steady to firm tone in near-term on weak international edible oil market.
