

Wheat Domestic Fundamentals:

- Wheat market is trading steady to low on increased pace of sowing and weak export demand and Supply and demand seems to be equal.
- In Gujarat, Gandhidham exporters are buying wheat at FOR Rs 1710/Q. Cargill and ITC are active in wheat spot market. According to traders every day around 700-800 bags are being diverted from ration quota to spot market at Rs 1550-1600/Q.
- In Rajasthan wheat has been sown in 20, 63, 700 hectares so far, which is 73.3% of the target area. Last year at the same time wheat was sown in 19, 29,800 hectares. Rajasthan has set target of 28, 00,000 hectares against the last years 29, 35,000 hectares.
- According to PIB (Press Information Bureau), wheat has been so far sown in 183.55 lakh hectares as compared to last year's 181.67 lakh hectares at the same time.
- Wheat sowing has improved as compared to last year at the same time. It is ahead almost by 2 lakh hectares till date. We expect that wheat area will remain same or more as compared to last year however lower area coverage was reported in Rajasthan and Gujarat.
- Feed millers have shifted to maize due to lower price and better availability in the major producing price, however maize price started firming up and it may support wheat price once again in near term.

International Market Update:

- According to latest USDA's WASDE report US ending stocks has been increased by 50 million bushels and Soft wheat export are reduced by 10 million tonnes. Global Wheat production estimates has been increased 655.11 million tonnes from 651.43 million tonnes. Trade has been marginally too increased. CBOT has fallen and international cash and future markets are expected to consolidate at lower levels.
- Iraq has made a purchase 350,000 tonnes of wheat from Australia and Romania. Romanian wheat was cheaper than Australian Wheat. Romanian Wheat has been purchased at USD 404/T CIF, whereas Australian wheat has been purchased in range of USD413/T-USD 407/t CIF.
- Indonesia has imposed 20% tariff on wheat flour import for next 200 days to protect its domestic flour millers from foreign imports in to Indonesia. This move may increase in import of wheat by 6-7% next year and Indonesia may import 7 million tonnes of wheat next year. Indonesia is the largest South East Asia importer, importing about 6.2 million tonnes of Wheat every year. Turkey is the largest wheat flour exporter having about 60% market share in wheat flour imports.

Domestic market Outlook: We expect wheat Cash and future market to trade steady to weak due to increased supply under OMSS-D bulk users will restrict uptrend.
