

Wheat Domestic Fundamentals:

- Delhi(Lawrence Road) prices increased by Rs 30 and Key spot market traded firm as government has increased the release price of wheat at UP by Rs 170/Q.
- STC has received the highest bid of USD 314.34/T FOB, from Glencore to export 40,000 tonnes of wheat from Chennai port in February. Next highest bid was received from Cargill at USD 306.77/T FOB, followed by Sun International at USD 304.5/T FOB.
- Domestic prices are unlikely to dip in near future as Wheat prices at U.P will increase due to tender price raised by Rs 170/Q to Rs 1573/Q. Buyers may turn to Rajasthan for cheaper wheat as compared to U.P and M.P Wheat.
- According to traders, from Indore Machine cleaned wheat is going to Mumbai, Karnataka, Madras and Calcutta in 5, 10 and 30 Kg Bags. Local demand is sluggish and new crop is expected to arrive by 1st week of March.
- Mill Quality wheat is being bought from Bhopal Mandi by traders and millers of Ahmadabad, Hyderabad, Mumbai and other South Indian Cities. From Bhopal Delivered price to Hyderabad is Rs 1800-1870/Q, to Ahmadabad is Rs 1750-1760/Q, to Mumbai Rs 1730-1740/Q and local prices is Rs 1400/Q. Prices are likely to be stable this week. Stocks are available in plenty at Bhopal.
- As per Traders at Kota, Rajasthan wheat demand from other states has been low and local demand too has been subdued.
- At Rajkot, Gujarat local and export demand is good. Wheat is not moving to other states from Gujarat and FOR Mundra is ruling Rs 1670/Q.
- Despite news of yellow and brown rust from some pockets of Punjab and Haryana wheat production prospects are very good so far. We expect total production to cross last year's level of 93.9 million T. Stock in government godowns may exceed last year's level if almost 10 million T stock from government godowns is not offloaded in the international market in the marketing year starting from April 2012.

International Market Update:

- Heat wave in Australia is hurting the wheat sowing prospects for 2013 crop. Wheat planting is still two months away but high temperature has taken the much needed soil moisture away. This year too Australia had a lower crop of 22 million tonnes as compared to previous year's 29.5 million tonnes.
- Ukraine has sown 2013 wheat crop in 6.7 million hectares and is expected to produce 19 million tonnes, as of now 92% of the crop is in good to satisfactory condition.
- Algeria imported 6.2 million tonnes of wheat in 2012 as compared to 7.4 million tonnes, however it is expected that in 2013 wheat exports are expected to be high due to poor weather condition in last quarter of 2012.
