

Price Drivers

- ❖ Short Supply may be anticipated in the long term.
- ❖ Demand from ginnerers remains high.
- ❖ Higher production estimates for U.S and China.
- ❖ Harvest completed in most countries.
- ❖ Global cotton production will rise 11%.
- ❖ USDA to increase the estimate for world cotton consumption in 2011-12.

Fundamental Analysis

- ✓ Cotton markets fell on reports of higher production estimates in U.S and China.
- ✓ Sources however added that there could be a short supply of raw cotton.
- ✓ Cotton markets also remained positive as demand from ginnerers remain high as they fear a shortage of stocks in the long term.
- ✓ However USDA reported the monthly supply/demand report cut world 2010/11 cotton ending stocks to 42.33 million (480-lb) bales from 42.81 million bales and raised world 2010/11 cotton consumption to 116.61 million bales against 116.55 million bales.
- ✓ USDA's weekly export sales data showed U.S. cotton sales at 486,500 running bales (500-lbs each), much higher than trade expectations for 200,000 to 250,000 running bales.
- ✓ USDA also reported that China's ending stocks have continued to tighten, indicating strong import demand going forward.
- ✓ USDA released its monthly supply/demand report and states that 2010/11 U.S. cotton crop; cotton exports cotton ending stocks remained unchanged at 18.32 million (480-lb) bales and 15.75 million bales and 1.90 million bales.
- ✓ USDA added that 2010/11 world cotton production will be lower at 114.95 million bales from 115.25 million bales and 2010/11 world cotton consumption will be higher at 116.61 million bales from 116.55 million bales.
- ✓ USDA added that 2010/11 China production will be lower at 29.50 million bales against 30 million bales however 2010/11 China cotton imports will be higher at 15.50 million bales from 15 million bales.
- ✓ USDA added that 2010/11 Indian cotton production will be slightly lower 25 million bales, from 26 million bales.

In the short term cotton prices will depend on demand from millers. In the medium to long term price trend will depend on cotton production estimates this year and demand from the overseas and domestic buyers.
