> Soy meal Prices Witnessed Steady to Firm Tone. FAS Eased.

# DOMESTIC SOY MEAL:

- ✓ Soy meal prices noticed steady firm tone in expectation of exports demand after recent purchases by Japan.
- ✓ Sluggish demand in the beans is noticed from solvent extractors due to weak crushing followed by disparity attributed to poor exports in soy meal. The current crush margin stands negative at Rs -406/MT compared to an average monthly, March, crush margin of Rs -246/MT. This may consequently affect the crushing during the month.
- ✓ India's soy meal exports are hit due to demand shift to South America supported by competitive price offer in the meal. Currently, the spread between Indian soy meal quotes (FAS Kandla USD/MT) and FOB Argentina is ruling higher at USD 36/MT which is above weekly average quote of USD 23/MT.
- ✓ Any shipment in soy meal is expected to boost the bean prices. Parity in soy meal exports to Japan at \$435-\$439 per tone is evident considering the fact Japan purchased Indian soy meal at the said price including cost and freight.

## Rape/ Mustard Meal:

India is expected to export Mustard DOC at 1.25 lakh tonnes in March 2011. The exports price of Mustard DOC improved due to exports enquiry with improved crushing on peak season in India.

India is expected to export about 1000 tonnes

of groundnut meal in the month of March 2011. India exported about 2000 tonnes of the GN meal in February 2011. The GN Cake prices are likely to remain steady to weak in near to medium term on steady demand.

- ✓ The overseas demand in Mustard DOC is declining, in February 2011 the export in the same was reported at 147,655 MT compared to 42409 MT in January 2011.
- ✓ EU imports of rapeseed meal reached a high of 75 Thd T in Oct/Dec 2010, thereof from Canada 39 Thd T.

We feel the domestic soymeal prices are likely to be subdued on fresh soybean crop arrivals in South America and their competitive prices in near and medium-term.
