

OILMEAL Dated: 30 Apr. 2011

Soy meal Prices Witnessed Fall. FAS Improved.

- ✓ Soy meal prices witnessed weak sentiments in the physical market in absence of fresh exports enquiries.
- ✓ Poor crushing followed by disparity in crush margin attributed to weakness in soy meal exports demand continues to pressure the domestic soybean prices. The Indian soy meal exports are hit due to the attractive price offer by South America.
- ✓ Currently, the spread between Indian soy meal quotes (FAS Kandla USD/MT) and FOB Argentina is ruling higher at USD 49/MT compared USD 17/MT, in the corresponding period last month.
- √ The domestic soybean crush margin disparity is recorded at Rs -302/MT compared to average monthly March disparity of Rs -246/MT.
- ✓ Oil World has raised their Brazilian soybean production estimate to a record 72.5 Mn T from earlier 72 Mn T.
- ✓ In the international front Argentina's soybean harvesting made good progress with almost 10.0 Mn ha done by the end of the last week.
- ✓ World trade in soya meal increased unusually sharply by 4.2 Mn T or 18% from a year earlier to 28.4 Mn T in Oct/March 2010/11.

Groundnut Meal

✓ India exported about 5218 MT of GN meal in March 2011. The demand is expected to rise in April, as per trade sources. The GN Cake prices are likely to remain steady to weak in near to medium term on steady demand.

Rape/ Mustard Meal:

- ✓ As per latest release by Solvent Extractors' Association of India, the export data of mustard seed DOC for the month of March 2010 is reported to 1.28 lakh tonnes compared to 0.40 lakh tonnes in the corresponding period of the previous year.
- ✓ In April Indian is expected to export about 1.5 lakh tones in view of improved crushing as reported by the market sources.

We feel the domestic soymeal prices are likely to be subdued on fresh soybean crop arrivals in South America and their competitive price offer by the region in near and medium-term.
