

OILMEAL Dated: 12 May. 2011

Soy meal Prices Remained Steady. FAS Steady.

- ✓ The soy meal exports remain weak owing to the demand shift followed by attractive price offer by South America. The spread between Indian soy meal quotes (FAS Kandla USD/MT) and FOB Argentina is ruling higher at USD 20/MT compared to USD 37/MT, in the corresponding period last month.
- ✓ The soy meal exports continue towards Nepal and Bangladesh in small quantities on logistics advantage followed by their vicinity.
- ✓ The soybean market is waiting for the USDA's monthly World Agriculture Supply and Demand Report due Wednesday. The domestic soybean market may react depending upon the supply and demand figure.
- ✓ The market is expecting bearish reports with higher US
 acreage in soybeans due to area shift from corn due to
 unfavourable weather condition for corn sowing.
- ✓ The overall US soybean planting progress, week ending May 08, 2011, is reported at 7 per cent, low soybean planting progress at 7% complete, well below the five-year average of 17%.
- ✓ Overall the soy meal demand is likely to remain weak in a couple of months.

Groundnut Meal

✓ India exported about 2288 MT of GN meal in Apr 2011 compared to nil export in the corresponding period last year. The demand is expected to rise in May, as per trade sources. The GN Cake prices are likely to remain steady to weak in near to medium term on steady demand.

Rape/ Mustard Meal:

- ✓ As per latest release by Solvent Extractors' Association of India, the export data of mustard seed DOC for the month of Apr 2010 is reported to 1.42 lakh tonnes compared to 1.17 lakh tonnes in the corresponding period of the previous year.
- ✓ In May Indian is expected to export about 1.5 lakh tones in view of improved crushing as reported by the market sources.

We feel the domestic soymeal prices are likely to be subdued on fresh soybean crop arrivals in South America and their competitive price offer by the region in near and medium-term.
