

**Oilseeds Domestic Fundamentals:**

Oilseeds prices mostly remained firm on buying support and supportive international vegoil market. Fresh demand in the vegetable oils followed by auspicious period for marriages further has lent support to the local oilseeds prices.

**Oilseeds International Fundamental:**

The overall US soybean planting progress is reported at 22 per cent, well below the five-year average of 31%, higher G-3 soya oil exports ((increasing to about 730 Thd T in May (against 612 Thd T last year) and 5.87 Mn T in Sept/May 2010/11)) and larger than expected damage of EU-27 rapeseed crop due to frost remained bullish factors for the international oilseeds market.

**Outlook:**

The domestic oilseeds prices are likely to remain firm on buying support in the seed in physical market coupled with by waning supplies in rapeseed and fresh demand in the edible oils.
