

Pulses Domestic Fundamentals:

- Chana prices inched up further in the bench mark market Delhi, Indore and Bikaner during the Friday's trade. Gradually declining arrivals from Rajasthan supported the prices besides reportedly buying from state agencies.
- In tandem with chana, peas prices also improved in the markets. However, comfortable stocks of peas in the markets amid regular imports.

Pulses International Fundamental:

- Sowing of lentils and peas in Canada has delayed due to the wet fields. Around 5% area has been covered in Saskatchewan till date compared to the 13% covered in same period last year.
- Unwillingness of Canadian and US farmers to expand chickpeas acreage is supporting bullish fundamentals in global chickpeas markets.

Outlook: Prices of all the pulses are expected to remain range bound except Urad as tight supplies of urad might support its prices to some extent.
