

May 26, 2011

Domestic Fundamentals:

Soy oil remains steady in the spot market. Gains in CBOT Soy oil and Malaysian Palm, offered positive cues and hence contained the downside that remain demand driven as the same start to weaken once again as the same gets restricted at higher price level of Rs. 610 per 10 Kg(Indore). Market awaits developments on the weather front to decide its future course of action. Mustard oil price continue to adopt weak bias in the spot market. Demand remains weak and the same weigh on price, however lower arrivals are likely to provide support at lower levels. Groundnut oil price remain steady in the spot market. Going forward, price trend is likely to remain upbeat Higher Export of Groundnut to countries like Malaysia, Thailand, led to shortage of seed for crushing and the consequent surge in the price of the later, pull the cost of crushing higher, leading to disparity.

International Market Fundamentals:

Malaysian palm oil price recoup higher. Downside seem capped as China continue to import palm oil cargoes at higher prices compared to existing commercial stocks of the vegetable oil to cater for the upcoming summer peak in demand as put by the traders. Likely rise in Monthly stocks at the end of May might continue to cap the upside. Exports of Malaysian palm oil products for May 1-25 rose 16.5 percent to 1,104,075 tonnes from 947,470 tonnes shipped during April 1-25 as put by cargo surveyor Societe Generale de Surveillance. Exports to China surged higher in the mentioned period while to India, they plunged lower.

Outlook:

Domestic edible oil price is likely to stay range bound and might see improvement in buying interest at lower price quotes which is likely to lend underlying support to the spot market prices going ahead.
