

Pulses Domestic Fundamentals:

- Pre monsoon rainfall in some parts of India has resulted in early sowing of Kharif pulses. In Uttar Pradesh, moong has been sown in 1.12 lakh hectare and urad in 38,000 hectare. Moong has been sown in 31,000 hectare in Gujarat and in 40,000 hectares in Bihar.
- Summer pulses crop condition is also reported well.
- Desi masoor prices have reduced by more than 5% during last ten days and this has forced farmers to stay away from the market as they are not ready to liquidate stock at current lower levels.

Pulses International Fundamental:

- Significant improvement in sowing is recorded in Canada during last week. According to Saskatchewan Agriculture's weekly report seeded area during 2011-12 till May 26, 2011 has reached to 54% compared to the last year's seeded area of 55% during the same period.
- Dull demand for Pulses in international markets kept weighing on pulses international prices.

Outlook: Prices of all the pulses are expected to remain range bound except Urad and chana.

Indicative International Prices (C&F, \$/MT): May 27, 2011
