

**Wheat Domestic Fundamentals:**

- Wheat prices continued to rule weak on better supply side supported by higher procurement.
- India will not allow any wheat or rice exports from government stocks.

**Wheat International Fundamental:**

- CBOT wheat futures ended up, managing to recover from a midday slide as continued threats to US plantings and dryness
- Dryness plaguing key growing areas of the southern Plains and Europe underpin prices.

**Outlook: Domestic**

- World wheat market is expected to move up on rough weather condition in EU and excessive rains in U.S. The IGC has slashed its forecast for the 2011/12 global wheat crop by 5 million tonnes to 667 million. Planting gets delayed in US.
