

May 30, 2011

Domestic Fundamentals:

Soy oil price remain positively skewed in the spot market. Much of the optimism remains driven by international markets. Market sources in Indore convey that demand for soy oil is still not up to the mark on the domestic front while optimism comes from lesser availability and lower stock at ports. Groundnut oil remain steady to higher, price stagnates from middle to end of May as crushers manage to catch hold of seed for crushing as they get diverted towards summer crop arrivals, which builds up the supply. This brings down the cost of crushing and lead to reduction in disparity to just Rs. 5-10 per MT.

International Market Fundamentals:

Malaysian palm oil price continue to recoup higher. Downside seem capped as China continue to import palm oil cargoes at higher prices compared to existing commercial stocks of the vegetable oil to cater for the upcoming summer peak in demand as put by the traders. Likely rise in Monthly stocks at the end of May might continue to cap the upside. Exports of Malaysian palm oil products for May 1-25 rose 16.5 percent to 1,104,075 tonnes from 947,470 tonnes shipped during April 1-25 as put by cargo surveyor Societe Generale de Surveillance. Exports to China surged higher in the mentioned period while to India, they plunged lower.

Outlook:

Domestic edible oil price is likely to stay positively skewed. While demand outlook for the immediate time, is likely to offer support, as the same is anticipated to pick up, positive global outlook also remains a cause of optimism. India's Vegoil Imports are likely to improve in the upcoming months as domestic availability face a
