

Wheat Domestic Fundamentals:

- Wheat market remained subdued on higher supply side on Monday.
- Lower demand amid decreasing trade margin kept market reeling under pressure.
- Arrivals in Bihar, M.P, Rajasthan and U.P. are still flowing on.
- Prices are expected to go down by 2 to 5 percent from current levels.

Wheat International Fundamental:

- Russia is expected to impose export tax due to fear of price hike in the local market and to restrict higher export. Weather worry might change market prevailing sentiments.
- US wheat crop will hit market soon however, lower size of incoming crop will restrict further downfall.

Outlook: Domestic

- The IGC has slashed its forecast for the 2011/12 global wheat crop by 5 million tonnes to 667 million. France and Argentina may lose some wheat buyers due to higher prices and available cheaper source like Russia and Ukraine.
