

**Oilseeds Domestic Fundamentals:**

Weak sentiments noticed in the oilseeds cash market on sluggish buying activity supported by lower international vegoil market. **No fresh deal in soy meal reported from any major destination though exports in small quantity to neighboring countries like Pakistan, Bangladesh and Nepal continued as usual. Currently the C&F, Indonesia is hovering around US \$422. Indonesia, Thailand and Japan may show interest in buying the Indian meal in near-term.**

**Oilseeds International Fundamental:**

Brazilian soybean exports must total 31 million tons in 2011, up 6% from 29.188 million tons shipped in 2010. US soybean planting is still lagging by 30%, five-year average, at 51% reported in the last official US planting report.

**Outlook:**

The domestic oilseeds prices are likely to improve followed by delayed plantings in US.
