

**Maize Domestic Market Fundamentals:**

**Mostly mixed tone sentiment continued in domestic maize market as monsoon showers preventing active trading sessions.**

- Reportedly, maize trading found active in Nizamabad market and local poultry feed manufacturers was remained aggressive buyers during flat level of arrivals.
- Monsoon showers kept maize trading activities dull in Bihar. And prices were fall by Rs. 30/quintal as higher moisture content is found in prevailing arrivals.

**International Market Fundamentals:**

- Improvement in corn planting found and 94% of planting noticed as on 5<sup>th</sup> June which weighed bearish sentiment on market but the aggressive buying from Mexico pushed the prices sturdily higher and went to new high price levels of US\$7.85 per bushel. Corn is now at new high levels and has potential to move higher on any bad weather report during the current growing season.

**Outlook:**

**We feel that prices are likely to remain range bound to firm on declining arrivals from major Rabi maize growing areas amid higher demand from poultry and starch industry.**
