Maize Domestic Market Fundamentals:

Mostly mixed tone sentiment continued in domestic maize market as monsoon showers preventing active trading sessions.

- Reportedly, maize trading found active in Nizamabad market and local poultry feed manufacturers was remained aggressive buyers during flat level of arrivals.
- Monsoon showers kept maize trading activities dull in Bihar. And prices were fall by Rs. 30/quintal as higher moisture content is found in prevailing arrivals.

International Market Fundamentals:

Improvement in corn planting found and 94% of planting noticed as on 5th June which weighed bearish sentiment
on market but the aggressive buying from Mexico pushed the prices sturdily higher and went to new high price
levels of US\$7.85 per bushel. Corn is now at new high levels and has potential to move higher on any bad
weather report during the current growing season.

Outlook:

We feel that prices are likely to remain range bound to firm on declining arrivals from major Rabi maize growing areas amid higher demand from poultry and starch industry.
