

Wheat Domestic Fundamentals:

- Wheat market could not sustain at higher level due to uncertainty over export decision. Disparity in export market and Russia entry in overseas market at the cheapest source of wheat give bearish outlook.
- Cash and future markets slip in lack of adequate buying support from millers and other end users. Market is expecting higher supply through PDS July onward.
- Market seems to be in wait and watch mood and direction will clear only after govt.'s stance.
- Wheat is being loaded from Gujarat to Kerela (Coimbatore, Kottam) @1370 and the trade is done at the margin of hardly Rs 250 per ton .Brokers are sourcing wheat @1060 per qtl.

Wheat International Fundamental:

- Russia is expected to export 13 to 15 million t wheat this year. Russia is quoting 5000 rubals per/mt (\$179.8 Per/MT) for common feed grade wheat.
- The forecast of global wheat output by IGC is boosted by 3 million T to 666 million T.
- World wheat stocks are expected to decline to 185m. tons (189m.) due to rising demand.

Outlook: Domestic:

- Wheat cash and future market could not sustain its upward momentum on back of export possibility. Demand from millers and other end users remained subdued amid continuous supply in various markets. Wheat is likely to trade weak in lack of proper buying support.
