

Wheat Domestic Fundamentals:

- Wheat cash market remained subdued on weak trading activities. Market is waiting for a direction and govt. decision on wheat export likely next week. Higher stock arrivals and lower demand weigh on market fundamentals.
- Wheat is being loaded from Gujarat to south India and delivered at Rs 1370 per qtl. with a minimum margin of Rs 20 to 30 per qtl. are sourcing wheat at the rate of Rs 1050-1060 per qtl. I locally. They pay freight charge at the rate of Rs 175 per qtl. for Coimbatore and Kottam

Wheat International Fundamental:

- US wheat futures ended stronger on projections for increased demand.
- Foreign buyers are expected to take advantage of last week's slide in prices.
- US wheat looks competitive for business on the world market with wheat from the Black Sea region, known for its low cost.
- Lower prices in US and rains in Ukraine have slowed down wheat harvesting activity.

Outlook: Domestic:

• Wheat market may get support on possibility of export. However, with ample stock available in the market and with govt.'s stock one sided rally is unlikely. There is no parity for export at current international prices despite some improvement.
