

Wheat Domestic Fundamentals:

- Wheat market continued to rule steady to weak in lack of fresh demand from big users and diminishing hope for export. Food ministry is unlikely to allow export on back of hefty food security obligation. Wheat market is likely to remain subdued in weeks ahead.
- Millers of Punjab are buying wheat from Rajasthan and M.P. where wheat is comparatively cheaper. Higher tax structure discourages local millers to buy within state. Wheat from Kota is being delivered in Punjab at the rate of Rs 1320 to Rs 1340 per qtl.

Wheat International Fundamental:

- World market is likely to remain bearish for short term on increased production forecast by IGC. IGC has pegged world wheat production at 674 million tonnes, almost 80 million tonnes higher than previous estimates.
- Estimated yield in North Dakota will drop from last year. UN Buys 90K Tons Of Wheat For Ethiopia. Egypt bought 60,000 tonnes of Russian wheat from Glencore at \$249.47 per tonne and 60,000 tonnes of Russian wheat from Cargill at \$250.40 per ton.

Outlook: Domestic:

- Wheat prices are likely to remain subdued for short and medium term on higher stock against normal consumption and bearish international outlook. Govt.'s intention to augment supply will continue to weigh on market sentiments.
