Cumin Seed:

- Lower arrivals were reported during this week period due to lean season.
- On expectations of higher price in coming days stockists are holding back their stocks in the domestic market.
- Active response from exporters was reported in the spot market. Export from India is increasing day by day.
- Sources revealed that, domestic demand in coming days due to festive season also push pepper prices to gain in short term.

Cardamom:

- Rising demand in spot markets against restricted arrivals from southern producing regions mainly pushed up cardamom prices in the domestic market. Cardamom arrivals expected to increase in coming days amid gradually picking up of harvesting. However, weather (rainfall) to be watched very carefully as rains may hinder harvest as well as affect the quality.
- Sources revealed that, in current year (2011) Cardamom production may increase up to 25% as compared to the last year (2010) due to good weather condition. So, current year farmers are expecting bumper crop production and it might put pressure on Cardamom prices to gain.
