

## Sugar & Gur Domestic Fundamentals:

- Sluggish demand and lackluster trade of sugar in all spot sugar markets results in decline in sugar prices on Thursday. However, keeping in view the upcoming expected sugar demand in festival season, buyers are trying to buy sugar at lower level.
- Demand remains sluggish in various spot markets. It is expected that after 5-7 days, demand came from retail buyers on the festive occasions.
- Steady to negative sentiments recorded in various spot gur markets on Thursday due to lack of demand and higher stock position of gur in cold storage in Muzaffarnagar market pressurize the prices. Also, fresh arrivals from Karnataka market also increase the supply of gur which lower the gur prices for the short term. However, it is expected that the demand might come from Gujarat market in Muzaffarnagar as coming festive push up the demand of gur in the coming days.

## Outlook:

Range bound movement witnessed in sugar prices and moving in a downward direction owing to higher sugar quota for August which kept the sugar buyers out of the market which further results in ease in sugar prices initially. However demand may improve afterwards owing to upcoming festivals which might give some support to the sugar prices in the coming days.
