

### Wheat Domestic Fundamentals:

- Wheat cash and future market remained under extreme pressure on weak fundamentals. Govt. is not in favour of providing freight subsidy for export.
- Worried over a possible spike in prices, the inflation-scarred government had been delaying a decision on export of wheat despite bumper harvest and more-than-comfortable stocks.
- Wheat is being loaded for Madurai from Rajasthan (Ganganagar). Traders and broker source it locally @ Rs 1200 and supply it @ Rs 1600 per Qtl. and earn profit @ Rs 65 per qtl.

### Wheat International Fundamental:

- World market is likely to remain bearish for short term on increased production forecast by IGC. IGC has pegged world wheat production at 674 million tonnes, almost 80 million tonnes higher than previous estimates.
- US wheat futures end sharply lower amid broad weakness in commodities and equities.
- The selling knocks down grains, crude oil and precious metals as investors flee riskier assets.
- A rally in the US dollar adds pressure as it makes US grains less attractive to foreign buyers.

### Outlook: Domestic:

- Wheat prices are likely to remain subdued for short and medium term on higher stock against normal consumption and bearish international outlook.
